

Preventative Maintenance

It's that time of the year ;

The weather is getting nicer and it's time to start thinking about getting your cabinets checked and making sure they are in the best shape for the upcoming months.

Here is a checklist of some things we look for when we come to check out your cabinet.

- Cabinet Ventilation System**
- Replacing the Air Filter if needed**
- Flasher Operation**
- Circuit Breakers**
- Cabinet Power Supply**
- Age of the Controller & Parts**
- Controller/MMU Interconnection**
- Controller Real Time Clock Accuracy**
- Vehicle and Pedestrian Detector Operations**
- Verify Proper Signal**
- Controller Startup**
- Pedestrian Push Buttons**
- Check Signal Heads for Mounting, Visors, Backplates**
- Confirm Detectors & Loop Functionality**

Having your cabinet checked can be beneficial so give us a call and make an appointment. We are flexible to fit in to your schedule!
